Muscatine, Iowa 52761

Re: Muscatine Fire Station  
Muscatine, Iowa  
State Energy Code Compliance

Chief Ewers,

This letter is to certify that for the new fire station referenced above will be designed and constructed to meet the State of Iowa Building Energy Code and 2006 International Energy Conservation Code. Upon construction completion and verification the responsible Architect and myself will sign and seal the Iowa State Energy Code Statement of Review. Once signed the Review document will be filed with the State Building Code Commissioner.

Sincerely,

A handwritten signature in black ink, appearing to read "John P. Trickel". The signature is fluid and cursive, with the first name "John" being more prominent and the last name "Trickel" written in a more compact, cursive style.

John P. Trickel, PE
